# Automotive: Automotive Technology

with TAFE NSW Schools Launchpad

## The what

The automotive workshops of today are more likely to resemble a hospital ward than a grease pit. Diagnostic machines, telematics, lasers and data analysis: these are the new tools of the trade. Learn to use these, plus traditional skills, as you discover how vehicles and engines operate in the **AUR20720 Certificate II in Automotive Vocational Preparation** course.

This course offers a head start to an automotive apprenticeship and is a great introduction to sales, mechanics, diagnostics, body and paint refinishing, as well as light/heavy equipment used in automotive technology. We're excited for you to be a part of the virtual TAFE-delivered Vocational Education and Training (TVET) program to maximise your learning and complete your HSC with highly relevant and real world skills. Success is doing what you love, so discover your perfect career path with TAFE NSW.

## The why

TAFE NSW Schools Launchpad:

- Is future-focussed, geared towards emerging and growth industries
- Teaches in-demand skills that employers want
- Contributes towards your HSC and ATAR\*
- Gives you a head start in your career
- Allows you to try a career and/or ignite a passion
- Get a nationally recognised Certificate II qualification upon successful completion
- Provides you with credit towards further study at TAFE NSW\*

## Possible course pathways

Credit towards AUR30620 Certificate III in Light Vehicle Mechanical Technology.\*

## The how

TAFE NSW Schools Launchpad offers:

- Teacher-led structured virtually delivered classes in real time
- Work placements in real world industries
- Face-to-face workshops to develop and demonstrate your practical skills
- 24/7 access to content – anywhere, anytime
- Collaboration with other students around NSW
- Access to leading industry software, simulated workplaces and tools

## Next steps

Speak to your school Careers Adviser to explore your virtual TVET study options.
