Information & Digital Technology: Web Design & Development

with TAFE NSW Schools Launchpad

The what

Knowing how to create and maintain a website is essential in today’s business world, so those who do will always be in demand. The **ICT30120 Certificate III in Information Technology** course will teach you how to design and develop a website using industry standard software, such as Adobe Dreamweaver, Photoshop and Python.

Through virtual classes and real world work placements, you’ll learn how to build an online presence for businesses and organisations, and to then maintain and perform upgrades on that website. We’re excited for you to be a part of the virtual TAFE-delivered Vocational Education and Training (TVET) program to maximise your learning and complete your HSC with highly relevant and real world skills. Success is doing what you love, so discover your perfect career path with TAFE NSW.

The why	The how
<p>TAFE NSW Schools Launchpad:</p> <ul style="list-style-type: none">▪ Is future-focussed, geared towards emerging and growth industries▪ Teaches in-demand skills that employers want▪ Contributes towards your HSC and ATAR*▪ Gives you a head start in your career▪ Allows you to try a career and/or ignite a passion▪ Get a nationally recognised Certificate III qualification upon successful completion▪ Provides you with credit towards further study at TAFE NSW*	<p>TAFE NSW Schools Launchpad offers:</p> <ul style="list-style-type: none">▪ Teacher-led structured virtually delivered classes in real time▪ Work placements in real world industries▪ 24/7 access to content – anywhere, anytime▪ Collaboration with other students around NSW▪ Access to leading industry software, simulated workplaces and tools
