Course Design

Bachelor of Applied Commerce is a three-year professional degree preparing graduates for employment in the financial services sector in Australia and overseas. This Bachelor has been designed with two majors: an accounting major and a financial planning major. The Bachelor of Applied Commerce is a three year qualification (full time) or part time equivalent.

The Bachelor of Applied Commerce has been designed to incorporate common subjects that students of both majors will complete. Students then complete specialist financial planning or accounting subjects to complete their chosen major. All students complete eight common subjects in first year. In second year, there are four common subjects, with students completing a further four specialist subjects for their chosen major. In third year, students complete two common subjects including an internship, and a further six specialist subjects for their chosen major. Students will also have the option of completing a double accounting/financial planning major by completing additional subjects.

A Diploma of Applied Commerce is also available and requires the completion of all eight Level 100 subjects. The Diploma of Applied Commerce is a one year qualification (full time) or part time equivalent.

Course Learning Outcomes
