BACHELOR OF BUSINESS

Course Code: HE20514

This degree will prepare you to work as a business professional across a range of industries in national and international contexts.

You will gain knowledge that is transferable to many industry sectors, including management, finance, human resources, technology information systems and marketing elements of an integrated business strategy. This degree also extends your knowledge of using business and online technologies, business research methodologies, critical analysis and conceptual thinking, creative reasoning and problem-solving, which all lead to the development of interpersonal, teamwork and leadership skills.

Depending on the electives you choose, you can specialise in marketing, management or international business, or a combination of these.

The range of career opportunities available to you on completion of this degree are limited only by your imagination.

COURSE REQUIREMENTS

The Bachelor of Business requires you to complete 24 subjects and a total of 240 credit points. A two year Associate Degree of Business, requiring the completion of 16 subjects and 160 credit points, and a one year Diploma of Business, requiring the completion of eight subjects and 80 credit points, are also available.

FAST TRACK YOUR STUDIES

If you have extensive and current industry experience or have completed a diploma or advanced diploma in business, business administration, international business, management, marketing, human resources, events, hospitality, travel and tourism, accounting, logistics, and financial services, you may be entitled to exemption from subjects in the Bachelor of Business. Talk to the course coordinator if you think you may be entitled to recognition of prior learning.
