Institute of Applied Technology Construction

IATC Weekly Construction Status Update

Institute of Applied Technology -Construction (IATC) & Multi-Trades

18 November 2022

TAFE NSW is delivering the Institute of Applied Technology - Construction; an \$84.5M Capital investment located at the TAFE NSW Nepean - Kingswood campus.

This new State of the Art, 5 Star Green Star Multi-trades facility will provide specialised training in construction, carpentry, electrical and plumbing, to support trades skills shortages in the Western Sydney Region.

The Institute of Applied Technology is a new education offering from the NSW Government, where leading educational institutions and industry will co-locate, co-design, and co-deliver theoretical and practical learning to empower people with the skills and experience they need to thrive in life and work. It will provide employable outcomes, transferrable skills, blended learning, and flexible pathways. This will ensure that NSW has a workforce ready to meet the needs of industry and future infrastructure demand.

Construction is well underway with completion due late March 2023.

Our IATC Roadmap

Highlights and Achievements (Week ending 19/11/2022)

- Continuation of blockwork to various areas
- Stripping of formwork to Lower and Upper Ground floors
- Continuation of steel reinforcement and formwork to Level One stair core No.2, lift core and columns
- Continuation of civil ground works
- Continuation of high-level services rough-in
- Continuation of external façade framing
- Preparation for structural steel roof framing

High-level services rough-in continue to LGF
