NATIONAL CENTRE FOR EMERGENCY MANAGEMENT STUDIES

BUSINESS CONTINUITY PLANNING

Major disruptions to business arise from both dramatic crises and from escalation of routine management failures within an organisation. Business continuity plans can help to manage risk and ensure resilience when faced with a disruptive event.

This unit is based on the competency:

BSBCON601: DEVELOP AND MAINTAIN BUSINESS CONTINUITY PLANS

The Statement of Attainment in Business Continuity Planning supports change across a division, business area or program area to develop and maintain workable continuity requirements.

Learn business continuity awareness, plan and help an organisation identify barriers and/or interruptions and determine how the organisation will achieve critical business objectives until full functions are restored.

DELIVERY MODEL

This accredited training unit can be completed online and you will be supported by an expert facilitator.

This unit can be delivered as professional development, face-to-face at a location of your choice.

ASSESSMENT

Assessment tasks for those undertaking accredited training will confirm the learner's ability to meet the performance criteria, and have direct relevance to the workplace.

COURSE DURATION

This unit is scheduled up to 3 times a year and is delivered and assessed over 10 weeks.

The duration of professional development workshops is negotiable.

PATHWAYS

Business Continuity Planning is a core unit from the PUA60112 Advanced Diploma of Public Safety (Emergency Management). This is a nationally recognised qualification from the Public Safety Training Package (PUA12).

The advanced diploma is an all hazards course suitable for people who work in the industry or have an aligned emergency management role. It is a practical and challenging learning experience designed to enhance or develop skills in emergency management before, during and after a disaster event.

RECOGNITION AND CREDIT

Recognition of Prior Learning (RPL) and direct credit are available through application.
