MULTI-AGENCY AIIMS

BE READY FOR THE WORST - BE TRAINED BY THE BEST

For more than two decades, the Australasian Inter-Service Incident Management System (AIIMS) has been recognised as the foundation for managing emergency incidents in Australia and New Zealand.

'Multi-Agency AIIMS' is 3 day program that focuses on the development of core knowledge and adaptable skills related to the application of AIIMS and how it applies to an 'All Hazards, All Agencies' approach to managing emergency incidents. Participants will also complete a complementary sessions in human factors, incident communication and leadership and teamwork.

LEARNING OUTCOMES:

This program comprises the following topics:

- AIIMS principles
- About incidents and incident management
- Incident Action Planning
- The Control function
- The Planning function
- The Intelligence function
- The Public Information function
- The Operations function
- The Investigation function
- The Logistics function
- The Finance function
- Human factors and incident management
- Communication
- Incident information
- Leadership and teamwork

COURSE ASSESSMENT:

There are three assessment activities in this program:

- Multiple Choice questions
- Role play scenarios
- Workshop participation

WHO SHOULD ATTEND?

Personnel from any agency with either a responsibility for managing emergency incidents or who support communities through preparedness or recovery coordination. This program is also relevant for businesses looking to develop a strategy for business continuity.
