# BUILDING DESIGN

From dreaming big to seeing the final brick laid, studying a TAFE NSW course in Building Design can lead to an exciting and rewarding career working on infrastructure projects, commercial and industrial buildings, or someone's dream home. Building designers work with architects and engineers to develop working drawings and building plans for new constructions and renovations. Our courses can provide pathways to further study at university that will enable you to become an architect, or to go on to study a TAFE NSW Bachelor of Design (Interior Design).
