As society becomes more aware of the importance of living and working sustainably, the demand for environmental expertise grows. Managing, protecting and restoring the natural environment, and monitoring the impact of physical and biological change, requires people who are passionate about the wellbeing of the planet. When you study and work in this sector, you play an important part in natural area restoration. You can help ensure flora and fauna are protected for generations to come.

**IS IT RIGHT FOR YOU?**

- Do you enjoy the outdoors?
