

NURSING COURSES

A career in nursing can truly make a difference to the lives of people and communities. As the health sector expands, nursing is becoming increasingly complex and important. TAFE NSW maintains up-to-date and expert training for roles within, and related to, nursing, including enrolled nursing. If you have a positive outlook, patience and a desire to care for others, graduate with a TAFE NSW qualification and make a real difference.

“I’m really looking forward to applying the skills that I have learned in this course, to my first job. Knowing what I know now, I feel confident to start work as an enrolled nurse. The experience from my teachers was so rich, and they were so helpful and supportive along the way. TAFE NSW has set me up with the confidence, skills and practical experience, and now I’m excited to start gathering more specialised experience in the fields that I’m interested in.”

SAMANTHA, DIPLOMA OF NURSING
