TAKE THE FIRST STEP TO BEING JOB READY AND INDUSTRY TRAINED

Kamal Ghouchanian | Iranian | Production planner

Skillmax was really helpful for me, because it covered all the stuff related to the job market in Australia. I personally enjoyed the part related to simulating the HR interview. It helped me to gain enough confidence and courage for my recruiting process, and after about two months, I started my role at my new company.

I will recommend my friends enrol in the Skillmax course because, it will help them to optimise their professionalism in their job seeking.

Seun Ayool | Nigeria | Project coordinator

Enrolling in the Skillmax course at TAFE NSW was, for me, a step in the right direction. The courses are tailored to equip overseas professionals for the Australian job market and workplace.

I found the Skillmax course an excellent initiative to help us as migrants, not only to get into the job market, but also to understand the Australian workplace culture and how the system works. We had engagement sessions with recruiters, had face-to-face interview scenarios, and CV preparation sessions.

The course contents were rich and very resourceful to me for writing my résumé, approaching potential employers and helped in securing a job even before the end of the programme.

Skillmax is a good place to network. My first international friends were from the Skillmax course and we still keep in touch.
