

# International students

## Do you rent? Know your rights!

“ If you are going to share a house with someone, you need an agreement. You can get an example agreement online. Some landlords are not good – for example charging extra fees. In that case you need to find other people to help you, get advice over the phone, and use the translation service if you need to. ”

*Vicki was an International Student at Western Sydney University. She had some problems with her landlord charging extra fees on top of rent and other agreed bills.*
