TAFENSW.EDU.AU/DEGREES
This three year professional degree is for people who want to work in the financial services sector. It has been developed in close consultation with industry and allows students to complete a major in accounting or financial planning.

Both majors require students to complete an industry placement in third year, which provides valuable on the ground workplace experience, and an opportunity to establish important industry contacts.

Subjects in management, marketing, law, economics and business statistics are included in both majors, to ensure you have the full range of knowledge and skills required to work effectively in the financial services industry.

Students can opt to graduate with a double major by completing additional subjects.

On successful completion of this course, you will be qualified to work in a wide range of roles in the accounting and financial services sector.

**COURSE REQUIREMENTS**

The Bachelor of Applied Commerce requires you to complete 24 subjects and a total of 240 credit points. A one year Diploma of Applied Commerce is also available requiring the completion of 8 subjects and 80 credit points.
This degree will prepare you to work as a business professional across a range of industries in national and international contexts.

You will gain knowledge of management, finance, human resources, technology information systems and marketing elements of an integrated business strategy; information that is transferable to many industry sectors. This degree also extends your knowledge of using business and online technologies, commercial research methodologies, critical analysis and conceptual thinking, creative reasoning and problem-solving, which all lead to the development of interpersonal, teamwork and leadership skills.

The range of career opportunities available to you on completion of this degree are limited only by your imagination. The inclusion of ethics and entrepreneurship subjects will equip you for work now and the future.

COURSE REQUIREMENTS

The Bachelor of Business requires you to complete 24 subjects and a total of 240 credit points. A two year ASSOCIATE DEGREE OF BUSINESS requiring the completion of 16 subjects and 160 credit points and a one year DIPLOMA OF BUSINESS requiring the completion of 8 subjects and 80 credit points are also available.
The Bachelor of Property Valuation is Australia’s only specialist property valuation degree and will prepare you to work as a valuer of any property class in NSW.

This qualification has been developed with the support of the Office of the NSW Valuer General, the NSW Office of Fair Trading and the Australian Property Institute.

Offered at Ultimo campus, the degree focuses on the skills required for working professionally as a property valuer, while ensuring graduates have a thorough understanding of the principles that underpin the realisation of valuation concepts, including background and preparation for a number of specialised areas of valuation practice.

The program will help you:

▪ develop the ability to explore ideas, think critically and operate professionally
▪ to learn through active engagement and experimentation with techniques and processes relevant to property valuation
▪ to interact with industry experts, site visits and field trips to enhance the practical learning experience.

COURSE REQUIREMENTS

The Bachelor of Property Valuation requires you to complete 24 subjects and a total of 240 credit points.

STUDY MODE AND DURATION

3 years full-time or part-time equivalent

CAMPUS LOCATIONS

▪ Ultimo

ENTRY REQUIREMENTS

▪ NSW HSC or equivalent with HSC level Maths OR Tertiary Preparation Certificate OR completion of a Certificate IV qualification or higher. If you do not have HSC Mathematics, you may be required to undertake a bridging program or preparatory maths course.
▪ 500 word essay
▪ Pre-admission interview

TUITION FEES

Domestic students:
$1,250 per 10 credit point subject
$30,000 indicative full Bachelor course fee
The Bachelor of 3D Art and Animation develops highly creative, technically skilled 3D design professionals by providing students with the creative, technical, communication and analytical skills needed for a successful career in this exciting industry.

Graduates of this course can establish themselves across a range of industries, including:

- filmmaking
- game design and development
- television
- online content development
- advertising

Delivered at the Design Centre Enmore, the Bachelor of 3D Art and Animation has a strong emphasis on the development of technical knowledge and practical skills.

This course will prepare you for a career as a 3D and visual effects artist and animator. It can also lead to roles such as a 3D concept or pre-visualisation artist, a 3D modeller on interactive games, or an animator or visual effects coordinator on a feature film.

**COURSE REQUIREMENTS**

The Bachelor of 3D Art and Animation requires you to complete 23 subjects and a total of 240 credit points. A two year ASSOCIATE DEGREE OF 3D ART AND ANIMATION requiring the completion of 17 subjects and 160 credit points and a one year DIPLOMA OF 3D ART AND ANIMATION requiring the completion of 8 subjects and 80 credit points are also available.
BACHELOR OF FASHION DESIGN

The Bachelor of Fashion Design provides a diverse educational experience designed to give you the skills and knowledge you need to channel your creativity as a designer within the constraints of the business environment.

Delivered with a global fashion industry perspective, the Bachelor of Fashion Design draws on TAFE’s international links to ensure currency with global fashion business trends, and provides a broad range of potential career outcomes.

The Fashion Design Studio at Ultimo where this course is taught has been consistently ranked among the top fashion schools in Australia and in the top 50 fashion schools globally. Furthermore, by enrolling in the Bachelor of Fashion Design you will join an esteemed list of FDS alumni including Akiro Isogawa, Nicky Zimmermann, Romance Was Born and Dion Lee.

On graduation you will have the skills required to work as a fashion designer, design director or creative director. Other career paths include:

- product developer
- fashion stylist
- fashion buyer
- production manager
- merchandising manager
- fashion events manager

COURSE REQUIREMENTS

The Bachelor of Fashion Design requires you to complete 28 subjects and a total of 240 credit points. A two year ASSOCIATE DEGREE OF FASHION DESIGN is also available requiring the completion of 20 subjects and 160 credit points.

The Fashion Design Studio (FDS) boasts a strong national and international reputation, and will give you an education experience that is second to none, helping you reach your creative potential.

The Fashion Design Studio was established in 1955 at the historic East Sydney Technical College and moved to purpose built facilities at Ultimo in 2005. As a founding member of the International Foundation of Fashion Technology Institutes (IFFTI) in 1998, The Fashion Design Studio is representative of the world’s leading fashion institutes.

FDS Alumni include:
- Akiro Isogawa
- Nicky Zimmerman
- Romance Was Born
- Dion Lee

“SOME OF AUSTRALIA’S MOST ESTEEMED FASHION DESIGNERS WERE GRADUATES OF THE STUDIO.”

Phoebe Garland
Garland & Garland Fashion & Fashion initiative
A career-oriented degree, the Bachelor of Design (Interior Design) provides a strong multi-disciplinary design focus, preparing you to work as a commercial interior designer.

You will learn how to create innovative, original concepts for commercial interior design projects, how to explore the spatial, structural and material elements of built interior environments, and how to develop a comprehensive understanding of the interaction between people and spaces.

You will develop the ability to think critically, work proactively and manage complex design projects from an initial concept through to a successful, detailed resolution.

In your final year you will also complete a major project, specialising in an area of your own interest. You will also undertake an internship in a design practice, preparing you to enter the profession with confidence.

COURSE REQUIREMENTS

The Bachelor of Design (Interior Design) requires you to complete 24 subjects and a total of 240 credit points.
BACHELOR OF
EARLY CHILDHOOD
EDUCATION
AND CARE (BIRTH-5)

Offering practical early childhood education and care skills, theoretical knowledge and work experience, the Bachelor of Early Childhood Education and Care (Birth-5) is designed to develop early childhood teachers who can integrate theoretical knowledge into practical education and care skills in the workplace.

There is a strong, applied learning focus to this degree so that when you graduate, you will be ready to work in a variety of settings including long day care, preschool, integrated child and family services and early intervention services. The practical core units are supplemented by extensive work experience, which will allow you to apply what you’ve learned in a real world environment.

You will study child development and pedagogical practices, welfare, ethics, diversity and social justice. During work placements, you will have the opportunity to test your theoretical understanding in a real workplace.

Graduates of this industry recognised qualification can look forward to a career as an early childhood teacher in long day care, preschool, integrated child and family services, and early intervention services.

COURSE REQUIREMENTS

The Bachelor of Early Childhood Education and Care (Birth-5) requires you to complete 40 subjects and a total of 320 credit points. The course includes a total of eight work placement (professional experience) subjects, with students completing one each semester. The work placement subjects do not attract tuition fees or credit points, but must be passed in order to complete the degree.

STUDY MODE AND DURATION
4 years full-time or part-time equivalent

CAMPUS LOCATIONS
- Glendale
- Nirrimba
- Randwick
- Shellharbour

ENTRY REQUIREMENTS
- NSW HSC or equivalent with HSC level English with a Band 4 result or higher OR Tertiary Preparation Certificate OR completion of a Certificate IV qualification or higher.

If you do not have Band 4 in English, you may need to complete an IELTS test at your own expense and achieve the appropriate score as outlined in the entry requirements to be eligible for entry to this degree.

TUITION FEES
Domestic students:
$1,120 per 10 credit point subject
$35,840 indicative full Bachelor course fee
The Diploma of Adult Education is a one year full-time qualification that will equip you with the practical skills required to design and deliver high quality training programs in your area of expertise.

This fully online course will teach you how to design learning and assessment that engages learners, so that they benefit from the knowledge and expertise you have of your discipline area. You will also develop skills to enable you to organise, implement and evaluate the training and assessment you deliver, plus learn how to deliver your training using digital technologies.

On completion of the Diploma of Adult Education you will be qualified to work as a trainer or assessor in your chosen discipline in a range of professional contexts including TAFE, private RTOs, professional development and in-house training.

**COURSE REQUIREMENTS**

Students must complete 8 subjects and achieve 80 credit points to complete this course. Each subject is worth 10 credit points.
The Bachelor of Community Services is a three year full-time qualification that will equip you with the practical and theoretical skills required to pursue a career in community services. Make your mark supporting the wellbeing of individuals, families and communities, as well as being an agent of social change.

This fully online degree is a dynamic hands-on course which will prepare you for practice based roles in both government and non-government agencies. You can choose electives to focus on areas of specialisation including working with families at risk, Aboriginal and Torres Strait Islander studies, settlement work and disability services.

You will complete a supervised work placement in a community services organisation in years 1 and 3 to allow you to develop real industry skills and experiences, which will maximise your employability on completion of the course.

Careers in community services are diverse, and graduates can find themselves working in a variety of settings and roles ranging from management to intervention to specialist practice.

COURSE REQUIREMENTS

The Bachelor of Community Services requires you to complete 22 subjects and a total of 240 credit points. Each online subject is worth 10 credit points. The two workplacement subjects are worth 20 credit points each.
The Diploma of Sustainable Practice is a fully online course aimed at people who work, or are planning to work, in roles that incorporate sustainability into the core business of their organisation.

The course responds to the demand for people with broad knowledge and skills in sustainability practice, and the trend for all sectors of our economy and community to better participate in a rapidly changing economy and regulatory environment. The course also assists graduates to gain or maintain professional certification with the International Society of Sustainability Professionals (ISSP).

Students complete eight subjects which cover the three key areas of knowledge essential for effective sustainability practitioners:

i. sustainability in context;
ii. sustainability systems; and
iii. sustainability in action.

The course uses a project based learning approach which allows students to engage with sustainability scenarios relevant to their work environment.

On successful completion of this course, you will have the knowledge and skills required to work in sustainability roles in the government, business and community sectors.

**COURSE REQUIREMENTS**

The Diploma of Sustainable Practice requires you to complete 8 subjects and a total of 80 credit points.

**STUDY MODE AND DURATION**

- 1 year full-time or part-time equivalent

**CAMPUS LOCATIONS**

- This is a fully online course

**ENTRY REQUIREMENTS**

- NSW HSC or equivalent OR Tertiary Preparation Certificate OR Certificate IV level vocational qualification or higher OR Completion of at least one year full-time study or equivalent at a higher education institution.

**TUITION FEES**

**Domestic students:**

- $1,120 per 10 credit point subject
- $8,960 indicative full course fee
ASSOCIATE DEGREE OF APPLIED ENGINEERING
ASSOCIATE DEGREE OF (RENEWABLE ENERGY TECHNOLOGIES)

Developed in consultation with industry to address the need for skilled para-professionals, this two-year program will give you access to new and exciting careers in the fast-growing renewable energy technologies sector.

It provides students with the knowledge required to work within the industry, as well as practical experience through professional experience placements arranged by TAFE.

All students study the processes of conversion and storage of energy, with subjects associate with electrical and mechanical engineering. Student will gain practical experience by taking part in real-life work placements, arranged by TAFE, to enhance student experience in a professional environment.

You can also use the program as a pathway into the third year of a bachelor degree in renewable energy technologies at the University of Newcastle.

Graduates of the course will have the knowledge and practical skills required to work as a para-professional in the renewable energy sector, in government, corporate, environmental and small business enterprises.

COURSE REQUIREMENTS

The Associate Degree of Applied Engineering (Renewable Energy Technologies) requires you to complete 16 subjects and a total of 160 credit points.
Learn how to protect the security of data and information and develop solutions for the management and protection against the threat of cybercrime.

Cybercrime is a growing threat to Australian business, consumers and government. Every day we rely on digital systems and networks to communicate, transact and to store sensitive data. This has created an unprecedented demand for professionals who can secure and monitor IT systems and protect personal and organisational privacy in cyberspace.

This three-year degree will prepare you for employment as a network security specialist in this fast-growing and dynamic industry. Developed in close consultation with industry, this degree has a strong applied focus, where you will learn through projects with the help of teachers who are industry leaders in the field.

The Bachelor of Information Technology (Network Security) has been accredited by the Australian Computer Society (ACS) and complies with the ACS standards for specialist IT degrees. The degree also prepares students to sit for recognised industry certifications (such as Cisco CCNA and CCNP).

On successful completion of this course you will be qualified to work in a range of network security, cyber security and data security management roles.

**COURSE REQUIREMENTS**

The Bachelor of Information Technology (Network Security) requires you to complete 24 subjects and a total of 240 credit points. A one year **DIPLOMA OF INFORMATION TECHNOLOGY** is also available requiring the completion of 8 subjects and 80 credit points.
BACHELOR OF INFORMATION TECHNOLOGY (DATA INFRASTRUCTURE ENGINEERING)

This brand new course will give graduates the skills required for building data systems, architecture and platforms to support big data solutions.

Big data is a fast evolving field in business and commerce and there is a growing demand for professionals with the expertise to build IT solutions to manage big data.

In this course you will develop a thorough understanding of IT systems, concepts and methodologies, as well as a comprehensive knowledge of networking, technology and systems, data security and infrastructure engineering.

As well as developing an understanding of the theory, you will develop analytical and critical evaluation skills that you will apply to practical projects and simulate real workplace contexts.

On successful completion of this course you will be able to work in a range of roles related to the management of security of big data.

COURSE REQUIREMENTS

The Bachelor of Information Technology (Data Infrastructure Engineering) requires you to complete 24 subjects and a total of 240 credit points.
ADMISSION REQUIREMENTS

To be eligible for admission into an undergraduate degree program you must satisfy at least one of the following four minimum entry requirements:

- NSW HSC (Higher School Certificate) or equivalent; OR
- Recognised Tertiary Preparation Certificate; OR
- Certificate IV level or higher vocational qualification; OR
- Completion of at least one year full-time study or equivalent in a degree course at a higher education institution

You do not require an Australian Tertiary Admission Rank (ATAR) for admission.

If you do not satisfy the above minimum eligibility requirements, you can apply for entry into a course under special admission provisions including mature age and disadvantage. You will be required to submit documentation to support your application for special admission.

Some courses have additional course specific entry requirements which are listed in this booklet.

HOW TO APPLY AND ENROL

Applications for admission can be downloaded at tafensw.edu.au/courses/tafe-nsw-degrees/applying-and-fees.

The application form provides details about any additional information you may need to submit with your application.

Your application must be received by the closing date indicated on the application form. Late applications will be accepted if places in the course are still available.

Your application will be assessed against the entry requirements for the course. Where the number of applications exceeds places available in the course, applicants will be ranked based on the merits of their application. Offers will be made in rank order.

If your application is successful you will receive an email offering you a place in the course. The email will provide further information about how to enrol.
TUITION FEES
Tuition fees vary between courses and are reviewed annually and are subject to change. Fees payable by the student are the tuition fees valid for that semester, and not the tuition fees that were in place the first time the student enrolled. Additional fees may be payable for equipment and resources.

DOMESTIC STUDENTS
Domestic students pay tuition fees each semester on a per subject basis, i.e., fees are only due for subjects you are enrolled in for that semester. Domestic students must pay their tuition fees by census date.

Eligible students can take out a FEE-HELP loan to pay their tuition fees – ‘Study Now, Pay Later!’

FEE-HELP is an Australian government student loan scheme. More information about FEE-HELP including eligibility criteria is available online at studyassist.gov.au/sites/studyassist/helppayingmyfees/fee-help

Domestic students intending to withdraw from a subject or course must do so by the advertised census date or they will be liable for the tuition fees (or the FEE-HELP loan liability) for the subjects they are withdrawing from.

More information about tuition fees is available online at: tafensw.edu.au/courses/tafe-nsw-degrees/applying-and-fees/fees-and-payment

RECOGNITION FOR PREVIOUS STUDIES
If you have completed other studies in a related field or have extensive relevant industry experience, you may be eligible for exemption from similar subjects in the degree program you enrol in. All applications for exemption must be made to the course coordinator and must include supporting documentation. You should attend classes until you are formally advised that your application for exemption has been granted.

INFORMATION FOR INTERNATIONAL STUDENTS
Most TAFE NSW degree courses are available for enrolment by international students, subject to meeting course entry requirements and satisfying student visa conditions.

More information for international students is available online at: studyintafe.edu.au/study/tafe/study-options/degree-courses

DISCLAIMER
Every effort has been made to ensure information in this booklet is accurate at the time of publication. Further information is available online at tafensw.edu.au/degrees
