It's all happening at TAFE NSW InfoFest. Register for an information session, head to www.tafensw.edu.au/infofest. Can't attend the Information Session? [Enquire Online](#) or call 131601. Connected Classroom is just like a regular classroom, but teachers and students use the latest video conferencing technologies. Your teacher can be in one TAFE location, and you can join the class from another TAFE location using video conferencing equipment or a mobile device. You can also join in from a venue in a participating regional community. You will be able to see and talk to your teacher and other students as though they were in the room with you. You will also have access to support to meet your learning needs.

Students are expected to have at least two years experience in a relevant work role. This experience provides existing skills, knowledge and understanding of the workplace that would not be available to students who are new entrants to the workforce. Further real work experiences provide opportunity to reflect on and support problem solving and adult learning principles.

Students will also be required to complete a project relative to their own work. This project will be the basis of assessment. Facilitation and coaching will be available to support students in applying theory learned to the initiation, execution, monitoring and review of their project implementation over 12 months. We offer student services and study support to ensure you can achieve your goals. Learn about TAFE NSW [Student Services](#)
