Course Features	<p>Nationally Recognised Training Traineeship Allowed This training is subsidised by the NSW Government</p>

Course Description

This qualification reflects the role of surveying technicians who work under supervision to support a surveying team. They perform a range of duties using surveying tools and equipment, including total stations and global navigation satellite systems (GNSS).

Licensing, legislative, regulatory or certification requirements apply in some States where cadastral and mining surveying must be undertaken under the supervision of a registered surveyor. Relevant state and territory regulatory authorities should be consulted to confirm those requirements.

This qualification is suitable for an Australian apprenticeship pathway.

Fee Details

Depending on your previous qualifications and experience your fee may decrease from the maximum shown.

Payment by instalment may also be available. Your fee and eligibility for concession/exemption will be calculated and confirmed during the enrolment process.

This training is subsidised by the NSW Government, and as a result your fee is determined through Training Services NSW formal eligibility criteria. In claiming the concession or exemption, students will be required to supply the required evidence to support the claim in accord with the requirements of Smart

and Skilled eligibility.

To activate your eligibility you must pay the student fee component PRIOR to commencement of the learning activity.

Entry Requirements

There are no entry requirements for this qualification.

Information Sessions and more about the course

Entry requirements:

Candidate must hold the Certificate III Surveying and Spatial Information Services qualification or have 1 to 5 years working experience. Candidates must complete the pre-assessment document (unless they hold their Certificate III Surveying and Spatial Information Services) to verify suitability for the qualification.
