Course Description

This qualification provides the skills and knowledge for an individual to be competent in programming and software development.

A person with this qualification would create new software products to meet an initial project brief or customise existing software products to meet customer needs.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Entry Requirements

There are no entry requirements for this qualification

Offering Entry Requirements and Information

There are no entry requirements, however it is recommended that you have a Certificate IV in Programming or equivalent knowledge.

Information Sessions and more about the course

Classes start the week commencing Monday 29 July 2019.

We have no information sessions scheduled at this time. Please contact the TAFE NSW Contact Centre on 131601 for more information.

Attendance

Monday, Wednesday & Friday 9 am to 5 pm (subject to changes)

Fee Details

Depending on your previous qualifications and experience, your fee may be less than the maximum fee quoted. Your actual fee will be calculated and confirmed during the enrolment process.

This course is approved for a Commonwealth VET Student Loan. If you meet the eligibility requirements, you are able to apply to the Commonwealth for a loan to cover all or part of your course fee. We will ask you whether you would like to apply for a VET Student Loan when you enrol and advise you of the process.

Incidental Cost

- Student Association - \$20.00

VET Student Loans - Fees and Census Days

For further assistance, contact the WSI Service Centre on 131 870 to enrol.

Units

ICTPRG529

Apply testing techniques for software development

| | |
|-----------|---|
| ICTPRG527 | Apply intermediate object-oriented language skills |
| ICTPRG523 | Apply advanced programming skills in another language |
| ICTPRG520 | Validate an application design against specifications |
| ICTPRG504 | Deploy an application to a production environment |
| ICTPRG503 | Debug and monitor applications |
| ICTPRG502 | Manage a project using software management tools |
| ICTPRG501 | Apply advanced object-oriented language skills |
| ICTPRG418 | Apply intermediate programming skills in another language |
| ICTICT418 | Contribute to copyright, ethics and privacy in an ICT environment |
| ICTSAS513 | Develop detailed test plans |
| ICTPRG601 | Develop advanced mobile multi-touch applications |
| ICTPRG515 | Review developed software |
| ICTPRG509 | Build using rapid application development |
| ICTPRG505 | Build advanced user interface |
| ICTPRG409 | Develop mobile applications |
