Course Description

The nationally accredited Certificate III in Civil Construction (Road Construction and Maintenance) will equip you with the skills you need to maintain the longevity and safety of our road network. Keep Australia moving and start your career working on road projects that make a difference.

LEARN NEW SKILLS

Through theory and practical course work, you will learn to:

- Measure and calculate materials
- Read and interpret plans
- Use hand and power tools
- Operate small plant and equipment

You will also learn about work health and safety, planning and organisation in the civil construction industry.

DEVELOP YOUR TALENT

Develop the personal qualities and skills needed to get ahead in this field:

- Analytical skills to read and interpret plans and specifications
- Communication
- Collaboration and team work
- Problem solving with a solutions focus

ACHIEVE YOUR GOALS

Completing the course will equip you with:

- Practical skills in operating hand and power tools, and heavy machinery

Career opportunities:

- Civil construction worker
- Civil construction road surfacing worker
- Civil construction (general) worker
- Civil construction site maintenance worker
- Civil construction mobile plant worker

GROW YOUR CAREER

Build on your career with further learning:

- Certificate IV in Civil Construction (Operations)
- Certificate IV in Civil Construction (Supervision)
- Diploma of Civil Construction (Engineering and Management)
- Associate Degree of Civil Construction (Engineering and Management)

INDUSTRY DEMAND

The civil construction sector is booming across NSW. Skilled construction workers are in high demand due to project works commissioned by the Federal and state government, local councils and private contracting firms.

Entry Requirements

When you study with TAFE NSW, we want you to succeed. Entry requirements allow us to make sure that you have the right pre-existing knowledge and skills to achieve your chosen qualification. You will need to provide evidence that you meet the requirements listed in this section.

TRAINING PACKAGE REQUIREMENTS

TAFE NSW offers the Certificate III in Civil Construction (Road Construction and Maintenance) as either an apprenticeship or non-apprenticeship, traineeship or non-traineeship, so you can construct the career you want.

Depending on the course you choose and the campus you want to study at you will need to provide evidence that you meet all relevant entry criteria.

Apprenticeship

To be eligible for this course, you must:

- Be employed as an apprentice in road construction and maintenance

- Submit your training plan proposal (TPP) with your application
- Complete formal training with TAFE NSW and your informal, on-the-job training with your employer

Non-apprenticeship

There may be options available for you to study as a non-apprentice. Enquire today and our Apprenticeship and Traineeship team will support you to understand any eligibility or entry requirements for our non-apprenticeship qualifications.

Traineeship

To be eligible for this course you must:

- Be employed in the road construction and maintenance industry as this course is delivered in the workplace
- Have a signed traineeship contract

Non-traineeship

To be eligible for this course you must:

- Be employed in the road construction and maintenance industry

TAFE NSW REQUIREMENTS

In addition to the Training Package entry requirements above, you will need to provide evidence of the following before starting your training or entering a construction work site:

- Achievement of the general induction training program (commonly known as white card). The unit CPCCWHS1001: Prepare to work safely in the construction industry covers this requirement. See Licensing requirements for more information

LICENSING REQUIREMENTS

Licensing, legislative, regulatory and certification requirements that apply to this qualification can vary between states, territories, and industry sectors. Refer to SafeWork Australias Licensing requirements and guidelines prior to applying to study this qualification.

Construction white card

A white card (or general construction induction card) is required for workers who want to carry out construction work in NSW. This is specified by the National Code of Practice for Induction Training for Construction Work (ASCC 2007).

Visit the Safework NSW website for more information on applying for your white card.

BE PREPARED

To be prepared for this course, it is recommended that you have:

- An ability to comply with safety procedures
- Good hand-eye coordination
- The ability to work in confined spaces and at heights if required
- Literacy, language and numeracy skills to an Australian Year 10 level
- A high level of physical fitness
- The ability to operate a computer

If you need help preparing for study, contact us about your options.

ADDITIONAL REQUIREMENTS

With 130 locations across the state, TAFE NSW tailors qualifications to meet the needs of the local community and specific student groups (like apprentices, fast-tracked and online students). To make sure this course is the right fit for you, we will need you to demonstrate that you can meet the additional requirements below.

To be enrolled in this course, you need to be able to provide evidence that you are:

- Working in the civil construction industry.

To successfully complete this course, you will need:

- It is not essential that you are highly skilled at using computers to study this course, however, you need to be able to operate a computer
- To have adequate motor skills and physical fitness to undertake routine tasks relevant to workplace activities.

Information Sessions and more about the course

INFORMATION SESSIONS

There are no information sessions currently scheduled for this course
