OVERVIEW

If you enjoy understanding how things work and have a creative yet methodical mind, the Certificate IV in Civil Construction Design could be for you.

Our expert teachers will share their industry skill and knowledge, with a design and urban planning slant, and teach you how to:

- Understand construction principles and apply them at the planning and design stage
- Analyse and use data to inform your work and meet project outcomes
- Develop strong skills in construction materials and processes, and their application in construction work
- Civil works drafting

To make sure you are in demand in one of Australia's fast-growing industries, study the Certificate IV in Civil Construction with TAFE NSW. Talk to us today about the study options available to you!

ENTRY REQUIREMENTS

When you study with TAFE NSW, we want you to succeed. Entry requirements allow us to make sure that you have the right pre-existing knowledge and skills to achieve your chosen qualification. You will need to provide evidence that you meet the requirements listed in this section.

There are no formal entry requirements for this course.

However, it is assumed that you have literacy, numeracy and technical skills at Certificate III level for success in this course. Contact your TAFE NSW campus if you have any questions about your suitability.

ADDITIONAL REQUIREMENTS

With 130 locations across the state, TAFE NSW tailors qualifications to meet the needs of the local community and specific student groups (like apprentices, fast-tracked and online students). To make sure this course is the right fit for you, we will need you to demonstrate that you can meet the additional requirements below.

To successfully complete this course, you will need:

- White card and Personnel Protection Equipment (PPE)
