WHY CHOOSE TAFE NSW?

Opens career doors. Our industry relationships lead many students directly into work with a range of employers including agencies, studios, galleries and fashion houses.

Global prospects. TAFE NSW graduates possess the technical knowledge, creative-thinking and specialised skills that are highly sought after by employers around the world.

State-of-the-art facilities. Purpose-built creative studios and industry standard software mean you will master the same tools of the trade as leading professionals.

Industry exposure. TAFE NSW partners with industry to provide you with hands-on experience through networking, sponsor programs, competitions, talks, lectures and other creative industry events.

Recognised and respected. TAFE NSW has built its reputation on delivering trusted, industry aligned and nationally recognised training for over 130 years.

Certificate III in Electrotechnology Electrician

National Course Code: UEE30811 | TAFE NSW Code: UEE30811-01V03-20BAT-010

Qualification Level	Certificate III
Study Type	Part Time Day
Course Start Date	Enquire Now
Hours Per Week	6
Duration	4Yr
Delivery Locations	Bathurst - (Apprenticeship)
Course Fees	<p>Subsidised Prices First Qualification: \$3,300.00 Second Qualification: \$3,960.00 Apprenticeship: \$2,000.00 You may be eligible for the NSW Smart & Skilled Fee Free Apprenticeship which will be verified at enrolment Concession: \$240.00</p> <p>Non-subsidised Prices Full Fee: \$14,960.00</p>
Course Features	Nationally Recognised Training Apprenticeship Allowed This training is subsidised by the NSW Government

Course Description

Light up your new career as a general electrician or electrical tradesperson when you study the nationally accredited Certificate III in Electrotechnology Electrician. Learn to install, test and repair electrical systems and be equipped with skills needed to join this growing industry.

LEARN NEW SKILLS

Through theory and practical course-work, you will learn:

- To install wiring systems, accessories and appliances for low voltage general electrical installations
- To connect electrical circuits
- To solve problems related to electrical equipment

DEVELOP YOUR TALENT

Develop the personal qualities and skills you need to get ahead in this field:

- Communication skills to connect with clients
- Customer service, collaboration and consultation skills
- Problem solving strategies
- Attention to detail

ACHIEVE YOUR GOALS

Completing this course will equip you with:

- A nationally recognised Certificate III qualification

GROW YOUR CAREER

Completing the Certificate III, with the appropriate elective units, can provide credit towards the UEE40611 Certificate IV in Electrotechnology - Systems Electrician or the UEE40911 Certificate IV in Industrial Electronics and Control.

INDUSTRY DEMAND

Common use of electricity is increasing due to the reliance on electrical equipment in the home and the workplace. This trend appears likely to continue, ensuring the ongoing demand for qualified electricians.

Entry Requirements

When you study with TAFE NSW, we want you to succeed. Entry requirements allow us to make sure that you have the right pre-existing knowledge and skills to achieve your chosen qualification. You will need to provide evidence that you meet the requirements listed in this section.

TRAINING PACKAGE ENTRY REQUIREMENTS

There are no formal Training Package entry requirements for this course.

However, the Electrotechnology Training Package recommends typical language, literacy and numeracy skill levels needed to successfully complete each Competency Standard Unit undertaken within this qualification.

TAFE NSW REQUIREMENTS

To be eligible for this course, you must:

- Provide evidence of relevant employment (for example, a Commitment Identification Number issued by Training Services NSW for an apprentice Training Plan Proposal. This will include appropriate apprentice, employer and RTO information)
- Meet Language Literacy and Numeracy (LLN) requirements. You will need to meet a minimum Australian Core Skills Framework Level 4 for Learning, Reading, Writing, Numeracy, Oral Communication

ADDITIONAL REQUIREMENTS

With 130 locations across the state, TAFE NSW tailors qualifications to meet the needs of the local community and specific student groups (like apprentices, fast-tracked and online students). To make sure this course is the right fit for you, we will need you to demonstrate that you can meet the additional requirements below.

LICENSING REQUIREMENTS

During training: Competency development activities are subject to regulations directly related to licensing, occupational health and safety and where applicable contracts of training, such as apprenticeships.

In the workplace: The application of the skills and knowledge described in units in this qualification require a licence to practice in the workplace where work is carried out on electrical equipment or installations which are designed to operate at voltages greater than 50 V a.c. or 120 V d.c.

Other conditions may apply under State and Territory legislative and regulatory requirements.

This course meets the national Electrical Regulatory Authorities Council (ERAC) requirements for an unrestricted Electrician's License. The Certificate III in Electrotechnology - Electrician qualification meets PART of the requirements for issue of a Qualified Supervisors Certificate - Electrician issued by NSW Fair Trading, which permits the holder to work unsupervised on low voltage fixed wiring and equipment, and to directly supervise others undertaking this work.

BE PREPARED

To be prepared for this course, it is recommended that you have:

- Language Literacy and Numeracy (LLN) to meet a minimum Australian Core Skills Framework Level 4

for Learning, Reading, Writing, Numeracy, Oral Communication.

To be enrolled in this course, you need to be able to provide evidence that you are:

- an apprentice (you will work in industry and study at the same time)
- employed full time
- signed up with an Apprentice Network Provider and have a Training Plan Proposal
- seeking to gain skills and knowledge to become a qualified Electrotechnology Electrician after successful completion

Information Sessions and more about the course

INFORMATION SESSIONS

There are no information sessions currently scheduled for this course

STUDY COMMITMENT

This is a Part-Time Day face to face course. You will need to attend approximately 6 hours of class per week, over 1 day a week, for 4 years.

You may also be required to complete approximately 22.2 hours of additional study each week outside of class hours, including private study and assignment preparation.

IS THIS COURSE RIGHT FOR YOU?

This course offering is designed for people who are apprentices or people working in the relevant industry without an apprenticeship who want to work as an electrician. You will learn how to select, install, set up, test, fault find, repair and maintain electrical systems and equipment in building and premises. This course meets the national Electrical Regulatory Authorities Council (ERAC) requirements for an unrestricted 'Electrician's License'. The Certificate III in Electrotechnology - Electrician qualification meets part of the requirements for issue of a 'Qualified Supervisors Certificate - Electrician' issued by NSW Office of Fair Trading, which permits the holder to work unsupervised on low voltage fixed wiring and equipment and to directly supervise others undertaking this work. In addition to the requirements of assessment at TAFE you will be required to demonstrate competence by providing relevant and validated work evidence by your participation in the workplace.

SERVICES AND STUDY SUPPORT

We offer student services and study support to ensure you can achieve your goals. Learn about TAFE NSW [Student Services](#)

As a TAFE NSW student in this course, you will have access to:

- LinkedIn Learning (formerly Lynda.com)
- Studiosity - online access to a real life tutor
- Easy computing online short courses
- Access to local TAFE libraries

Attendance

This course is currently scheduled on Thursdays from 8.00am to 4:30pm. This timetable may change and will be confirmed by your teacher.

Fee Details

SMART AND SKILLED FEES

There are a range of study options for NSW Apprentices and eligible non-apprentices with relevant industry work experience in this course.

Under the NSW Government fee-free apprenticeship initiative, NSW apprentices that commence their training on or after 1 July 2018 may be eligible for fee-free training. Apprentices are required to provide evidence of their NSW apprenticeship to finalise their enrolment and applicable fees.

This course is also a TAFE NSW Trade Pathways Qualification and ideal if you have been working in this industry for an extended period of time but haven't received a qualification. To be eligible to enrol as a non-apprentice and secure funding, you must firstly meet the Smart and Skilled eligibility criteria and be:

- over 21 years of age
- able to demonstrate and provide evidence of extensive industry experience and
- able to demonstrate relevant ongoing work experience and provide workplace evidence to support the achievement of competence.

To study this course as a NSW apprentice or to check if you meet the non-apprentice requirements for NSW funding, please enquire now or call 131 601. For further information about eligibility and explanations of the different fee categories, visit [Are You Eligible?](#)

ADDITIONAL RESOURCES

You will need to provide for yourself the following resources which you will keep when you complete your study. These resources support the learning material delivered in the classroom and the workplace. The resources include electronic profiling system access for work evidence gathering, learner modules, textbooks, standards and specifications, the following fees apply for the 2020 stage 1 intake through until completion in 2024.

- Stage 1 - \$329,
- Stage 2 - \$223,
- Stage 3 - \$230
- Stage 4 - \$45 (eProfiling only).

Incidental Cost

- Course Related Materials Charge - \$329.00

How to Enrol

Semester two starts July 2020. Enquire now to be notified when enrolments open.

To find out more information on this course including the next start date, submit an online enquiry by clicking the **Enquire Now** button on this page, or call 131 601 during business hours* to chat with a member of our friendly customer service team.

*Our customer service team are available from Monday to Friday, 9am to 5pm AEST.

Enrolling with us is easy, though the exact process does depend on your course and any prerequisites

that go with it.

Be sure to read your chosen course information carefully to make sure it is the right qualification, location and study type for you.

Enrol and pay online via our secure payment gateway to secure your place.

As you progress through the enrolment process you will be prompted to provide additional information.

If you are interested in studying as a Trainee or Apprentice please call 131 601 for full details.

Units

UEENEEE101A	Apply Occupational Health and Safety regulations, codes and practices in the workplace
UEENEEK142A	Apply environmentally and sustainable procedures in the energy sector
UEENEEG063A	Arrange circuits, control and protection for general electrical installations
UEENEEG109A	Develop and connect electrical control circuits
UEENEEE137A	Document and apply measures to control OHS risks associated with electrotechnology work
UEENEEE102A	Fabricate, assemble and dismantle utilities industry components
UEENEEE105A	Fix and secure electrotechnology equipment
UEENEEG104A	Install appliances, switchgear and associated accessories for low voltage electrical installations
UEENEEG103A	Install low voltage wiring and accessories
UEENEEO20B	Participate in electrical work and competency development activities
UEENEEG107A	Select wiring systems and cables for low voltage general electrical installations
UEENEEE104A	Solve problems in d.c. circuits
UEENEEG101A	Solve problems in electromagnetic devices and related circuits
UEENEEG102A	Solve problems in low voltage a.c. circuits
UEENEEG033A	Solve problems in single and three phase low voltage electrical apparatus and circuits
UEENEEG006A	Solve problems in single and three phase low voltage machines
UEENEEG106A	Terminate cables, cords and accessories for low voltage circuits
UEENEEG108A	Trouble-shoot and repair faults in low voltage electrical apparatus and circuits
UEENEEE107A	Use drawings, diagrams, schedules, standards, codes and specifications
UEENEEG105A	Verify compliance and functionality of low voltage general electrical installations
UEENEEI116A	Assemble, enter and verify operating instructions in microprocessor equipped devices
UEENEEO10B	Deliver a service to customers
UEENEEI150A	Develop, enter and verify discrete control programs for programmable controllers
UEENEEO01B	Maintain documentation

UEENEEH102A	Repairs basic electronic apparatus faults by replacement of components
UEENEEI01A	Use computer applications relevant to a workplace

Career Opportunities

General electrician, electrical tradesperson.
