Course Description

This course is designed for people wishing to disconnect and reconnect low voltage fixed wired water heaters which are incidental or a primary and regular function of work related to a principle work function.

You will learn to isolate low voltage electrical supplies; disconnect and reconnect water heaters.

Topics for working safely on water heaters include:

- Identifying supply arrangements
- Following isolation procedure
- Selecting and using testing and measuring devices
- Terminating and connecting cables and conductors to Australian Standards
- Safety testing and reporting on water heaters.

The following topics are EXCLUDED from this course:

- Disconnecting or reconnecting circuits at a switchboard or to general electrical accessories (including switches, socket outlets, light etc)
- Installation of or alteration to any part of the fixed electrical wiring system (defined as electrical installing work).

Entry Requirements

When you study with TAFE NSW, we want you to succeed. Entry requirements allow us to make sure that you have the right pre-existing knowledge and skills to achieve your chosen qualification. You will need to provide evidence that you meet the requirements listed in this section

The units of competency in this skill set are for people holding a relevant CIII or equivalent in the areas of Plumbing and gas fitting and the work is incidental or a primary and regular function of work related to a principle work function.

Information Sessions and more about the course

It's all happening at TAFE NSW InfoFest. [Register](#) for an information session to broaden your skills set to get ahead. Can't find an Information Session for you? [Enquire Online](#) or call 131601. Please make an **online enquiry** or contact us on **131 601** for more information about the course.

The units of competency in this skill set are for people holding a relevant Certificate 3 or equivalent in the areas of Plumbing and gas fitting and the work is incidental or a primary and regular function of work related to a principle work function.

Learners will need to provide a copy of their trade qualification prior to enrolment.

A message for young people under 17 years of age - If you are under 17 years and wish to enrol you will need to have completed Year 10 or have special permission from school and TAFE to do so. We offer student services and study support to ensure you can achieve your goals. Learn about TAFE NSW [Student Services](#)

As a TAFE NSW student in this course, you will have access to:

- LinkedIn Learning (formerly Lynda.com)
- Studiosity - online access to a real life tutor
- Easy computing online short courses
- Access to local TAFE libraries

Attendance

When your enrolment is complete you will be advised of attendance requirements.

Fee Details

In addition to your course fee, there may be some additional charges to cover the costs of undertaking this training.

Costs associated with work experience and field trips such as food, transport and accommodation are at the students' own expense.

RECOGNITION

Recognition is a process of acknowledging previously completed qualifications, skills, knowledge or experience relevant to your course. This may reduce the amount of learning required, reduce your course fees and allow you to achieve your qualification faster.

How to Enrol

Enrolling with us is easy, though the exact process does depend on your course and any prerequisites that go with it.

Be sure to read your chosen course information carefully to make sure it is the right qualification, location and study type for you.

As you progress through the enrolment process you will be prompted to provide additional information. Find out more about [Applying and Enrolling](#)
