QUALIFICATION

Certificate IV in Cyber Security

CAREER AREA

Information Technology

TRAINING PACKAGE ENTRY REQUIREMENTS:

ENTRY REQUIREMENTS

There are no entry requirements for this qualification. You can enrol in this course now.

However, to be eligible for the fast-tracked 6-month and on-campus course, you must provide evidence that you have completed the Certificate III in Information, Digital Media and Technology (Networking stream), or an equivalent course. (Fast-tracked option not available for TAFE Digital).

Enquire for more information.

Traineeship

TAFE NSW also offers the Certificate IV in Cyber Security as a traineeship. To be eligible for this course as a trainee, you must:

- Meet the above entry requirements
- Be employed in the IT industry as this course is delivered in the workplace
- Have a signed traineeship contract

Thinking about a traineeship? Enquire today.

COURSE SUCCESS REQUIREMENTS

During your study, you will need to meet specific requirements that are necessary for you to complete your course work and be successful.

You will need to meet the following success requirements to be able to undertake work placement within industry. Your teacher will let you know when you need to provide evidence of:

- National Police Check which discloses your criminal history, within the first two weeks of the course
- Signed ethical conduct agreement that outlines your responsibilities to work within legal and ethical boundaries, on the first day of the course

NATIONALLY RECOGNISED TRAINING

- Traineeship Allowed
- Full Time, Part Time Evening

CAREER OPPORTUNITIES

Cyber Security Technician

IS THIS COURSE RIGHT FOR YOU?

To be prepared for this course, it is recommended that you have:

- A basic understanding of Windows and Linux operating systems
- A basic understanding of networking protocols, configuration of routers and switches including related protocols, command line configuration and IP addressing
- Intermediate literacy and numeracy skills

If you need help preparing for study, contact us about your options.

OVERVIEW

The nationally accredited Certificate IV in Cyber Security will give you the specialist skills needed to become highly sought-after cyber security analyst or engineer in a growing sector. You will train with innovative technologies in a virtual environment and learn how to identify and manage cyber security threats to protect organisations from harm.

This is a fully government subsidised JobTrainer course. Eligibility criteria applies.

LEARN NEW SKILLS

Through your course work, you will learn to:

- Monitor the risk of cyberattacks
- Identify and use the right tools to defend against breaches
- Detect attacks in the network and system security
