TRAINING**■ Traineeship Allowed****■ Full Time**

CAREER

OPPORTUNITIES

**Conservation and
land management
industry worker
Revegetation Worker****OVERVIEW**

The nationally accredited Certificate III in Natural Area Restoration leads to a rewarding career as a Bush Regenerator or Vegetation Practitioner in a skills shortage industry. Go on to work in specialist fields such as biodiversity, natural area restoration and bushland fire management with hands-on skills in bringing degraded lands back to life.

LEARN NEW SKILLS

Through theoretical and practical course work, you will learn to:

- Plan and manage natural area restoration
- Inspect and assess a site for the replacement of vegetation

- Monitor natural area restoration works
- Analyse and review programs
- Apply environmentally sustainable work practices
- Identify native plants and control weeds

DEVELOP YOUR TALENT

Develop the qualities needed to get ahead in this field:

- A desire to work outdoors
- Empathy for the natural world
- Great communication skills
- The ability to work alone or in a team in remote conditions

ACHIEVE YOUR GOALS

Successfully completing this course will equip you with:

- A nationally recognised qualification
- Strong pathways into your next qualification

GROW YOUR CAREER

Go on to further study with TAFE NSW:

- Certificate III in Conservation and Land Management
- Certificate IV in Conservation and Land Management
- Diploma of Conservation and Land Management

Plus, you can upskill

Gain additional Statement of Attainments:

- Chainsaw Operations - Basic tree felling
- Chainsaw Operations - Trim and cut
- First Aid

INDUSTRY DEMAND

The United Nations has declared this to be the Decade of Ecosystem Restoration. Land degradation is negatively impacting at least 3.2 billion people. The demand for expertise in managing, protecting and restoring the natural environment is growing, providing a range of career options.
