Certificate III in Permaculture

CAREER AREA

Environment and Agriculture

TRAINING PACKAGE ENTRY REQUIREMENTS:

There are no Training Package entry requirements for this qualification.

It is assumed that you have literacy and numeracy skills at Certificate II level for success in this course. Contact your TAFE NSW campus if you have any questions about your suitability.

**OVERVIEW**

Immerse yourself in sustainable living as you discover how permaculture principles contribute to environmental and community wellbeing.

This is a fully government-subsidised JobTrainer course. Eligibility criteria applies.

If you want to establish and maintain permaculture systems for private clients, organisations or community entities, the Certificate III in Permaculture is the course for you.

You will learn how to:

- Research and communicate information on permaculture principles and practices
- Develop recommendations for integrated plant and animal systems
- Maintain integrated plant and animal systems
- Select plant and animal species for permaculture systems
- Conduct site inspections

You can also elect to study a wide variety of related skills like:

- Rural or urban permaculture systems
- Maintenance and programs suited to animal care or crop maintenance
- Aboriginal cultural protocols

This qualification will suit anyone wanting to work at a skilled tradesman level in permaculture projects and enterprises. These roles may involve supervision of others and working with people of diverse backgrounds and abilities.
