Allowed**
- **Blended, Full Time,  
Part Time Day**

**OVERVIEW**

The nationally accredited Certificate III in Heavy Commercial Vehicle Mechanical Technology is for you if you are excited by the sound of a revving engine and love to get your hands dirty. Learn to repair, maintenance and replace parts and become a trade

qualified heavy diesel mechanic.

This is a fully government-subsidised JobTrainer course. Eligibility criteri

### LEARN NEW SKILLS

Through your on-the-job experience and course work, you will learn to diagnose and repair:

- Charging systems, starting systems and electrical systems
- Compression ignition engines and engine management systems
- Brake, steering and suspension systems
- Clutches, transmissions and drivelines

### DEVELOP YOUR TALENT

Develop the personal qualities and skills needed to get ahead:

- Strong technical and mechanical aptitude
- Interpersonal skills
- Sharp problem-solving skills
- A keen eye for detail

### ACHIEVE YOUR GOALS

Completing the course will equip you with:

- A nationally recognised trade qualification
- Eligibility to apply for your tradesperson certificate (licence) through Service NSW

### Career outcomes and job roles:

- Heavy diesel mechanic
- Heavy diesel technician

### GROW YOUR CAREER

This course qualifies you to work as an automotive mechanic tradesperson. Continue your studies to expand your career opportunities:

- Certificate IV in Automotive Mechanical Diagnosis
- Certificate IV in Automotive Management
- Diploma in Automotive Technology
- Diploma in Automotive Management

### INDUSTRY DEMAND

The need for highly skilled heavy vehicle mechanics who can work with emerging technologies is at an all-time high. As of 2018 employers were only able to fill 30% of their advertised job vacancies. Identified as a skills shortage sector, qualified automotive heavy vehicle mechanics will continue to have strong employment opportunities well into the future, as new technologies arise and become standard vehicle equipment.
