## OVERVIEW

Do you want to specialise in trimming manufacture, repair and maintenance for a range of motor vehicles, marine craft and other vehicles in the automotive industry?

The Certificate III in Automotive and Marine Trimming Technology will teach you how to:

- Apply original equipment manufacturer repair procedures during vehicle repairs
- Fabricate automotive and marine trim components
- Carry out repairs and alterations to automotive and marine trim
- Remove and replace automotive and marine interior trim components
- Trim vehicle components
- Select trim and fabric materials
- Conduct sewing operations
- Select and apply adhesives in automotive and marine service and repair work
- Work effectively with others, follow safe working practices and use and maintain tools and equipment in an automotive workplace
- Follow environmental and sustainability best practice in an automotive workplace

The Certificate III in Automotive and Marine Trimming Technology can lead to careers as a:

- Marine Trimming Technician
- Vehicle Trimmer

If you are an Apprentice or looking to land an Apprenticeship in the automotive industry, the Certificate III in Automotive and Marine Trimming Technology is the course for you.
