OVERVIEW

The nationally accredited Certificate IV in Information Technology Networking prepares you for success in a fast-paced and technical industry as a network support technician, systems administrator or help desk specialist. Learn to manage networks, data, install virtual machines and sustainable IT practices and get qualified in just six months.

LEARN NEW SKILLS

Through theory and practical course work, you will learn how to:

- Identify and confirm business requirements
- Install and manage small-scale networks
- Operate and troubleshoot an enterprise branch network
- Manage network and data integrity
- Install and configure virtual machines
- Work in a production flow

DEVELOP YOUR TALENT

Develop the personal attributes that will help you get ahead:

- Collaboration with co-workers and clients
- Great communication skills
- Deal with interruptions due to changing priorities and deadlines

ACHIEVE YOUR GOALS

Completing this course will provide you with:

- Foundation skills to enter the IT industry
- A pathway to the Diploma in Information Technology Networking course
- Skills you can use in any industry going through a digital transformation

Career opportunities

- Network support technician
- Systems administrator
- Computer technician
- Help desk specialist
- Database support worker

GROW YOUR CAREER

Take your career further to work independently or in a supervisory role:

- Diploma of Information Technology Networking
- Advanced Diploma in Network security

INDUSTRY DEMAND

With so many businesses going through a digital transformation and IT technicians supporting so many of these industries, IT networking is one of the fastest growing job sectors in Australia. Become an important part of a business in solving issues for both internal and external clients and become a part of a highly skilled and in-demand workforce.
