QUALIFICATION

Advanced Diploma of Maritime Operations (Marine Engineering Class 1)

CAREER AREA

Maritime

TRAINING PACKAGE ENTRY REQUIREMENTS:**ENTRY REQUIREMENTS**

TAFE NSW offers the Advanced Diploma of Maritime Operations (Marine Engineering Class 1) as either a traineeship or non-traineeship, so you can build the career you want.

Non-traineeship

There are no entry requirements for non-trainees. You can enrol in this course now.

Traineeship

To be eligible for this course you must:

- Be employed in maritime industry as this course is delivered in the workplace
- Have a signed traineeship contract

Thinking about a traineeship? Enquire today.

IS THIS COURSE RIGHT FOR YOU?

To be prepared for this course, it is recommended that you:

- Have completed the Advanced Diploma of Maritime Operations (Marine Engineering Class 2) as this course builds on the knowledge learnt there
- Have an intermediate level of fitness. Specifically, you should be able to swim 50 metres and stay afloat for 5 minutes, without a life jacket in work attire
- Do not suffer from acute ocean sickness
- Provide your own work clothes. These include overalls, protective eyewear, closed work shoes and sun protection for practical sessions
- Provide your own clothes for wet drills. These include clothes similar to work clothes (no wet suits or swimmers as per Australian Marine Safety Authority guidelines), a towel, and sun protection
- Undertake a prescribed learning, literacy and numeracy assessment to ensure you are prepared for the foundation skills requirements in each of the units of competency - contact us to discuss your requirements

If you need help preparing for study, contact us about your options.

Before you enrol in this course, we recommend contacting the Australian Marine Safety Authority (AMSA) to confirm you meet their requirements, and to arrange a pre-eligibility letter confirming your sea time.

**■ Traineeship Allowed****OVERVIEW**

Do you have experience in maritime engineering and are looking to take your career to the next level? The Advanced Diploma of Maritime Operations (Marine Engineering Class 1) will help you to develop the practical skills and in-depth knowledge required to perform various specialised tasks when working as an Engineer Class 1.

TAFE NSW teachers are industry-leading, experienced and qualified professionals in their field and are committed to giving you the best possible learning experience.

You will learn valuable skills in:

- Planning and scheduling operations.
- Organising safe maintenance and repair procedures.
- Operating and maintaining electrical machinery.
- Maintenance (including testing and detecting faults and repairing them).
- Managing the administration of the vessel including its business, legal and personnel aspects.

Other outcomes of this course include the ability to perform routine tasks on board a vessel while ensuring safe work practices.

This course is often associated with skills and careers related to a coastal engineer, shipboard engineer, marine engineer and watchkeeper.

If you want to study maritime operations, a maritime course or explore a maritime training package, TAFE NSW is your education industry leader.
