QUALIFICATION

Certificate IV in Aeroskills (Avionics)

CAREER AREA

Aviation and Aerospace

TRAINING PACKAGE ENTRY REQUIREMENTS:**ENTRY REQUIREMENTS**

TAFE NSW offers the Certificate IV in Aeroskills (Avionics) (Aircraft Maintenance Stream) as either an apprenticeship or non-apprenticeship, so you can create the career you want.

Apprenticeship

To be eligible for this course, you must:

- Be employed as an apprentice in the aeroskills industry evidenced by a letter of support from your employer
- Submit your training plan proposal (TPP) with your application

Non-apprenticeship

To be eligible for a subsidised place in this course as a non-apprentice, you must:

- Secure work experience (details below) to meet the on-the-job component of your training

WORK EXPERIENCE

Work experience provides you with exposure to situations and circumstances that cannot be replicated in a learning or simulated environment.

Work experience is not mandatory for this qualification; however, this is a highly practical course.

You are responsible for arranging your own work experience. Our team can offer support and guidance to assist you.

IS THIS COURSE RIGHT FOR YOU?

To be prepared for this course, it is recommended that you:

- Have completed year 10 of high school
- Are eligible to apply for an Aviation Security Identification Card (ASIC), as you will need this card to be employed in the industry

If you need help preparing for study, contact us about your options.

NATIONALLY RECOGNISED
TRAINING

- **Apprenticeship Allowed**
- **Blended, Part Time Day**

OVERVIEW

*** This course provides an outcome in the Aircraft Maintenance stream. Please enquire with your local TAFE NSW if you want to enrol in the Component Maintenance Workshop stream ***

This qualification applies to employees of Continuing Airworthiness Management Organisations (CAMOs) or to members of the Australian Defence Force (ADF) who perform scheduled inspections, fault diagnosis and repair, and modification of aircraft electrical, instrument and radio systems and system components. It defines the exit from an apprenticeship and may apply to either aircraft maintenance performed on flight lines/ramps and in hangars, or to avionic component repair and overhaul performed in workshops. These outcomes are defined in two streams:

- aircraft maintenance stream
- component maintenance workshop stream.

The qualification consists of:

- common units that apply to all Aeroskills specialist streams at Certificate III and IV levels
- avionic technical stream units relating to either aircraft avionic system and component maintenance or to component repair and overhaul
- one mechanical technical stream unit that is applicable to the aircraft maintenance stream
- one imported unit that is applicable to the aircraft maintenance stream.

Because of the wide application of this qualification there is considerable flexibility in the selection of technical stream units and individuals should be mindful of their future career aspirations when selecting units for, in particular, the aircraft maintenance stream.

CAMPUS	STUDY MODE	START DATE	DURATION	MAX FEE IF ELIGIBLE FOR SUBSIDY	HOURS PER WEEK
Padstow (Apprenticeship)	Blended	15 Feb 2021	4Yr	\$3,820.00	14
