QUALIFICATION

Diploma of Aeroskills (Avionics)

CAREER AREA

Aviation and Aerospace

TRAINING PACKAGE ENTRY REQUIREMENTS:

TAFE NSW offers the Diploma of Aeroskills (Avionics) as either an apprenticeship or non-apprenticeship, so you can create the career you want.

Apprenticeship

To be eligible for this course, you must:

- Be employed as an apprentice in the aeroskills maintenance industry evidenced by a letter of support from your employer
- Submit your training plan proposal (TPP) with your application

Non-apprenticeship

To be eligible for a subsidised place in this course as a non-apprentice, you must:

- Secure work experience (details below) to meet the on-the-job component of your training

WORK EXPERIENCE

Work experience provides you with exposure to situations and circumstances that cannot be replicated in a learning or simulated environment.

Work experience is not mandatory for this qualification; however, this is a highly practical course.

NATIONALLY RECOGNISED
TRAINING

- **Apprenticeship Allowed**
- **Part Time Day**
- **Fully Subsidised Course**

OVERVIEW

The Diploma of Aeroskills (Avionics) is the course for you if:

- You are looking for a CASA B2 Aircraft Maintenance Engineer Licence covering the supervision, performance and certification of avionic maintenance on aircraft that are type-rated by CASA for maintenance purposes, or
- You have completed your Certificate IV Aeroskills qualification and wishing to upskill, or
- You hold a CASA B2 licence with exclusions listed on licence and want to upskill

This is a fully government-subsidised JobTrainer course. Eligibility criteria applies.

Students will learn to:

- Perform administrative processes to prepare for the certification of civil aircraft maintenance
- Plan and implement civil aircraft maintenance activities
- Supervise civil aircraft maintenance activities and manage human resources in the workplace
- Apply work health and safety procedures at supervisor level in aviation maintenance
- Manage self in the aviation maintenance environment
- Perform advanced troubleshooting in aircraft avionic maintenance
- Perform aircraft weight and balance calculations as a result of modifications

It is important to know that TAFE NSW updates courses in consultation with civil aviation authorities.
