NATIONALLY RECOGNISED
TRAINING

■ **Traineeship Allowed**
■ **Full Time, Part Time**
Day, Part Time
Evening

CAREER
OPPORTUNITIES

Laboratory
technicians,
instrument operators
and similar personnel

OVERVIEW

The Certificate III in Laboratory Skills will help you start your career as a laboratory technician. Learn your skills and get real-world experience working in contemporary laboratories performing technical tasks, preparing and testing samples, solving problems, and identifying trends in data.

This is a fully government-subsidised JobTrainer course. Eligibility criteria applies.

LEARN NEW SKILLS

Through theoretical and practical course work, you will learn to:

- Record, process, interpret and present data findings
- Perform different types of tests like food, chemical and biological
- Prepare samples like tissue and cell cultures
- Use laboratory software, equipment

- Work safely in a laboratory environment

DEVELOP YOUR TALENT

Develop the skills that will help you get ahead in this career:

- Good communication
- Collaboration skills and the ability to work on your own
- Self-motivation
- An interest in science, math and engineering learning

ACHIEVE YOUR GOALS

Completing this course will provide you with:

- Nationally recognised Certificate III qualification
- Job readiness as laboratory attendant or technician

GROW YOUR CAREER

Advance your laboratory career with the following further study options:

- Certificate III in Pathology Assistance
- Certificate IV in Laboratory Techniques
- Diploma of Laboratory Technology (Pathology)
- Diploma of Laboratory Technology (Food)
- Diploma of Laboratory Technology (Chemistry)

INDUSTRY DEMAND

Future technologies, like robotics and artificial intelligence, are rapidly integrating with laboratory fields. Laboratory technicians are in high demand with the role appearing on the NSW Smart and Skilled list as a State priority. TAFE NSW have consulted with industry to ensure this course meets industry needs and helps to address the skills shortage.
