IS THIS COURSE RIGHT FOR YOU?

To be prepared for this course, we recommend that you have:

- Good written and verbal communication skills
- Self-motivation
- Collaboration skills and the ability to work individually
- An interest in plant/process engineering
- Be able to carry out maths calculations, equivalent to a year 9 level
- Basic computer skills

If you need help preparing for study, contact us about your options.

NATIONALLY RECOGNISED
TRAINING

- **Traineeship Allowed**
- **Workplace**
- **Part Time**

CAREER
OPPORTUNITIESProduction support
workers**OVERVIEW**

The nationally recognised Certificate III in Process Manufacturing will kick-start your career as a plant operator, as you develop niche skills to support manufacturing processes across the state. Specialise in chemical, hydrocarbons, plastic, or minerals as you contribute to a sustainable future in production.

LEARN NEW SKILLS

Through a mix of theory and practical coursework, learn to:

- Perform engineering measurements
- Produce basic engineering detailed drawings
- Coordinate tasks to support production
- Identify equipment faults
- Manufacturing processes across industries

DEVELOP YOUR TALENT

Develop the attributes to help you get ahead:

- Good written and verbal communication skills

- Self-motivation
- Collaboration skills and the ability to work individually
- An interest in plant/process engineering
- Knowledge of maths equivalent to year 9 level
- Basic computer skills

ACHIEVE YOUR GOALS

Completing this course provides you with:

- A nationally recognised qualification at Certificate III level
- A strong pathway to continue your study and enhance your career opportunities

Career opportunities:

- Process manufacturing operator
- Chemical, hydrocarbons and oil refining manufacturer
- Mineral products manufacturing operator
- Production support worker
