OVERVIEW

Do you dream of working in the fast-paced world of fashion? Do you love watching looks as they first appear on the runway and eagerly wait for them to make their way to the store windows?

The Diploma of Applied Fashion Design and Merchandising, with a focus on Design and Product Development, will provide you with a range of skills needed throughout the production supply chain process.

You will learn about different areas of the fashion industry including:

- Fabrics and performance
- Advanced garment construction
- Patternmaking and CAD patternmaking
- Draping
- CAD design
- Product specifications and costing
- ADOBE suite
- Range development

The range of knowledge and skills gained in this qualification focus stream will prepare you to apply technical, research and practical skills in the design and development of a range of products in the fashion workroom, within the fashion and textiles industry.
