OVERVIEW

As society becomes more aware of the importance of living and working sustainably, the demand for environmental expertise grows. If this interests you, consider a career in environmental science and water management?

TAFE NSW nationally recognised Certificate III in Water Industry Treatment ensures that students attain the general competencies needed in this unique field.

You will acquire the essential knowledge and skills required to:

- Apply risk management principles of water industry standards, guidelines and legislation
- Assess, implement and report environmental procedures

Plus, you will be able to use what you learn in specialist areas such as drinking and waste water.

Taught by respected trained professionals, in real-world learning environments, you will gain the theory and hands-on skill you need to be ready for your first day on the job.

Plus, you can kick-start your career with a Traineeship!
