Engineering

**TRAINING PACKAGE ENTRY REQUIREMENTS:**

There are no formal entry requirements for this course.

It is assumed that you have literacy and numeracy at Certificate I level for success in this course. Contact your TAFE NSW campus if you have any questions about your suitability.

**OVERVIEW**

If you are new to the civil construction industry and are keen to learn and grow, the Certificate II in Resources and Infrastructure Work Preparation is the place to start.

This is a fully government-subsidised JobTrainer course. Eligibility criteria applies.

This is an entry-level nationally recognised course that gives you the opportunity to learn the essentials in:

- Workplace health and safety processes for working on large sites
- Using tools and equipment
- Methods of communication
- The processes involved in starting a career in the civil construction, mining or quarrying sectors

Our facilities will give you the practical skills you need to be in demand in this fast-growing industry.

The Certificate II in Resources and Infrastructure Work Preparation is a pathway qualification and can lead to careers and further study in:

- Small Mine Operator
- Open Cut Miner (Metalliferous Mining)
- Open Cut Coal Miner
- Civil Construction Worker
- RII30815 - Certificate III in Civil Construction (Plant Operations)
- RII30915 - Certificate III in Civil Construction

Streams available include:

- Pipe Laying
- Road Construction
- Road Marking
- Bridge Construction and Maintenance

Talk to us about your career goals and let us show the study options that will get you there.
