QUALIFICATION

Certificate III in Civil Construction Plant Operations

CAREER AREA

Civil Construction and Surveying

TRAINING PACKAGE ENTRY REQUIREMENTS:

ENTRY REQUIREMENTS

TAFE NSW offers Certificate III in Civil Construction Plant Operations as an apprenticeship. There may also be options available for you to study as a non-apprentice.

To be eligible for this course, you need to demonstrate the following:

- That you hold a valid general construction induction card (commonly known as a white card)

Apprenticeship

In addition to meeting the above requirement, apprentices must:

- Be employed as an apprentice in the civil construction industry as evidenced by a letter of support from your employer
- Submit your Training Plan Proposal (TPP) with your application

Non-apprenticeship

There may be options for you to study as a non-apprentice. Enquire today and one of our Apprenticeship and Traineeship team will help you understand any eligibility or entry requirements.

LICENSING REQUIREMENTS

Licensing, legislative, regulatory and certification requirements that apply to this qualification can vary between states, territories, and industry sectors.

Visit the [SafeWork](#) website for more information.

IS THIS COURSE RIGHT FOR YOU?

To be prepared for this course, we recommend that you have:

- An interest in working outdoors and with big machinery
- Relevant employment or access to appropriate workplace environments to perform your skills
- Intermediate level fitness to manage the physical demands of the role
- Good organisational skills and the ability to multitask and respond well to rapid change
- Experience handling tools and equipment

If you need help preparing for study, contact us about your options.

NATIONALLY RECOGNISED
TRAINING

- **Apprenticeship Allowed**
- **Combination**
- **Part Time, Variable**

OVERVIEW

The nationally accredited Certificate III in Civil Construction builds your plant operations skills so you can contribute to exciting infrastructure projects as an earthmoving plant operator. Collaborate with colleagues and work on a range of projects from roads, to railways, to airports.

LEARN NEW SKILLS

Through a mix of theory and practical coursework, learn to:

- Operate a small plant and equipment including excavators, loaders, dozers, graders, and rollers
- Handle industry resources and infrastructure materials
- Safely dispose of non-toxic materials
- Identify, locate, and protect underground services

DEVELOP YOUR TALENT

Develop the attributes to help you get ahead:

- Good analytical and problem solving skills
- The ability to work in changing environments
- Excellent communication and interpersonal skills
- Hand-eye coordination
- The ability to work as part of a team

ACHIEVE YOUR GOALS

Completing this course provides you with:

- Experience reviewing real construction plans, specifications and drawings
- Industry networks with peers, colleagues and plant operations professionals
- A strong pathway to continue your study and enhance your career opportunities
- A nationally recognised qualification at Certificate III level
- Accreditation to work as a trade qualified plant operator

Career opportunities:

- Earthmoving plant operator

GROW YOUR CAREER

Take your career further with the:

- Certificate IV in Civil Construction Supervision
- Certificate IV in Civil Construction Design
- Diploma of Civil Construction Design
