## OVERVIEW

This qualification reflects the role of individuals working as skilled operators in civil construction, who apply a broad range of skills in varied work contexts, using some discretion and judgement and relevant theoretical knowledge. The individual may provide theoretical advice and support a team.

The qualification applies to specialist occupations in bituminous surfacing, bridge construction and maintenance, pipe laying, road construction and maintenance, road marking, tunnel construction, timber bridge construction and maintenance, traffic management and general civil construction occupations.

Licensing, legislative, regulatory or certification considerations

Licensing, legislative and certification requirements that apply to this qualification can vary between states, territories, and industry sectors. Users must check requirements with relevant body before applying the qualification.
