**QUALIFICATION**

Certificate IV in Civil Construction Design

**CAREER AREA**

Civil Construction and Surveying

**TRAINING PACKAGE ENTRY REQUIREMENTS:****ENTRY REQUIREMENTS**

There are no entry requirements for this qualification. You can enrol now.

**Traineeship**

TAFE NSW also offers the Certificate IV in Civil Construction Design as a traineeship.

To be eligible to enrol as a trainee you must:

- Be employed in the construction industry as this course is delivered in the workplace
- Have a signed traineeship contract

Thinking about a traineeship? Enquire today.

**COURSE SUCCESS REQUIREMENTS**

During your study, you need to meet specific requirements that are necessary for you to complete your course work and be successful.

If you are working on construction sites or studying as a trainee, you need to meet the following success. Your teacher will let you know when you need to provide evidence of:

- A General Construction Induction Card (commonly known as a White Card)

**LICENSING REQUIREMENTS**

A white card (or general construction induction card) is required for workers who require access to construction sites.

Visit the [SafeWork website](#) for more information on applying for your white card.

**IS THIS COURSE RIGHT FOR YOU?**

To be prepared for this course, we recommend that you have:

- A familiarity with computer programs such as Word
- A personal computer that is CAD capable (Computer-Aided Design program)
- Math skills at a Year 12 General level

If you need help preparing for study, contact us about your options.

- **Traineeship Allowed**
- **On campus, Combination**
- **Full Time, Part Time, Variable**

**OVERVIEW**

The nationally recognised Certificate IV in Civil Construction Design gives you the essential theoretical and practical skills needed to step into the construction industry. Learn to apply a wide range of construction principles and begin your civil career in a range of roles.

## LEARN NEW SKILLS

Through a mix of theory and practical coursework, learn to:

- Manage projects
- Apply design and construction details
- Learn and use the latest industry software
- Design, draft and build civil infrastructure projects

## DEVELOP YOUR TALENT

Develop the attributes to help you get ahead:

- The ability to be adaptable to change, whether that be in design or on the construction site
- A willingness to work with new technology (Computer-Aided Design) or any new construction techniques
- The ability to work collaboratively with others as part of a larger design and construction team
- Problem-solving skills and persistence when challenges arise
- A creative yet methodical approach to their work

## ACHIEVE YOUR GOALS

Completing this course provides you with:

- A nationally recognised qualification at Certificate IV level
- A strong pathway to continue your study and enhance your career opportunities

### Career opportunities:

- Civil engineering designer
- Civil engineering draftsman
- Civil engineering technician

## GROW YOUR CAREER

Take your career further with the:

- Diploma of Civil Construction Design
- Advanced Diploma of Civil Construction Design
