- Good time management
- Problem solving skills

If you need help preparing for study, contact us about your options.

NATIONALLY RECOGNISED
TRAINING■ **On campus**■ **Part Time****CAREER
OPPORTUNITIES****Electrician (Special
Class).****OVERVIEW**

The nationally recognised Certificate IV in Electrotechnology - Systems Electrician will give you the skills to become an Electrician Special Class. Work on complex electrical circuitry, solve intricate problems and plan ambitious electrical installations of integrated systems.

LEARN NEW SKILLS

Through a mix of theory and practical coursework, learn to:

- Install wiring systems, accessories and appliances for low voltage general electrical installations
- Connect electrical circuits
- Solve problems related to electrical equipment

DEVELOP YOUR TALENT

Develop the attributes to help you get ahead:

- Time management skills
- Problem solving and analytical thinking skills
- Ability to work independently and as part of a team
- Dependable and reliable

ACHIEVE YOUR GOALS

Completing this course provides you with:

- National recognition as a qualified electrician special class
- Direct pathway to engineering qualifications

Career opportunities:

- Electrician special class

GROW YOUR CAREER

Take your career further with the:

- Diploma of Electrical Engineering
