**QUALIFICATION**

Certificate IV in Electrical Equipment and Systems

**CAREER AREA**

Electro Technology

**TRAINING PACKAGE ENTRY REQUIREMENTS:**

There are no formal educational requirements for entry to this course.

However, the Electrotechnology Training Package recommends typical language, literacy and numeracy skill levels needed to successfully complete each Competency Standard Unit undertaken within this qualification.

Learners should either be in relevant employment or have access to appropriate simulated workplace environments to achieve the completion requirements of this course.

**CAREER OPPORTUNITIES**

**Electrical fitter tradesperson / technician.**

**OVERVIEW**

This course is for electrical fitters working on electrical equipment and systems. You will learn how to manufacture, fit, assemble, erect, operate, test, fault find, alter, repair electrical equipment and includes electrical wiring associated with assembling, maintaining, terminating or altering the wiring between electrical components within a plant or machinery.

This course DOES NOT include electrical wiring systems work covered by licensing requirements declared by the Electrical Regulators Advisory Council (ERAC) for an unrestricted 'Electrician's licence'.
